

# WEDUCER CUP - SPREE-EDITION

As a gift for employees, partner and clients...

## OUR IDEA

Together with [Kaffeeform](#), we have developed something special: a coffee cup in the SPREE EDITION, made from recycled coffee grounds and plant-based polymers. It is produced in Germany in a resource-efficient manner and symbolises our commitment to a clean Berlin River.

The cup is available to private customers via the [Kaffeeform online shop](#), but is also perfectly suited as a **sustainable corporate gift** for employees or clients.

With every ALLES IM FLUSS x Kaffeeform Weducer Cup – SPREE EDITION, you directly support our project: promoting clean waterways, environmental education, and the sustainable use of resources. **Every cup that is not a disposable cup counts!**

## THE PRODUCT

The cup has a capacity of 350 ml and is durable, lightweight, robust and reusable. The SPREE EDITION is produced in the colour Cardamom and comes with two lids.

Upon request, it can also be personalised with your **company logo** on the lid. Prices start at €10,50 per unit.
